

SITE ANALYSIS AND PERSPECTIVE SHEET

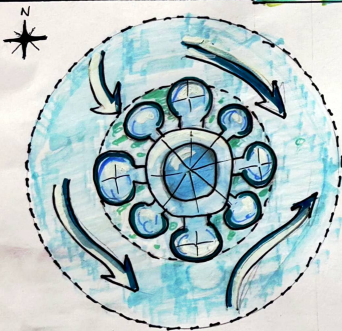

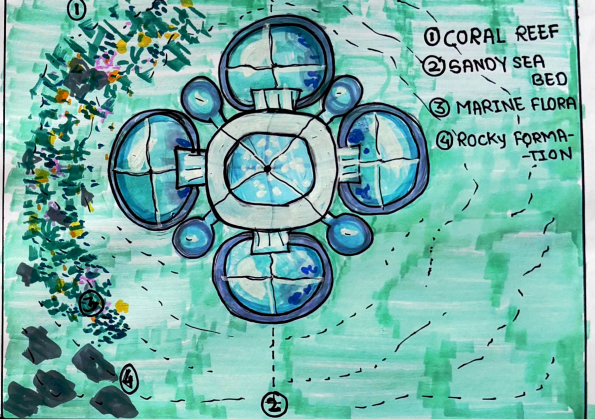

LOCATION:

SITE: CORAL REEFS
ABYSSAL ZONE
DEPTH: 60 m BELOW
SEA LEVEL
WATER TEMP: 18°- 22°C
SALINITY: 35 PSU
COORDINATES: 24° 18' N
55° 19' E

SITE CONTEXT (section)

SITE CONTEXT (PLAN)

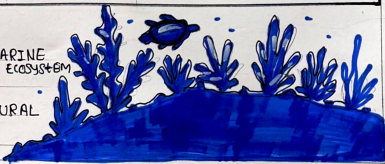

- WATER CURRENTS
MODERATE CURRENT
FROM SOUTH TO NORTH
- PRESSURE
HIGH PRESSURE
- TEMPERATURE
STABLE AND COOL
18°- 22°C
- PRESSURE
HIGH PRESSURE
AT 60 m depth
- SALINITY
STABLE AT 35 PSU

MATERIAL STRATEGY

- ★ REINFORCED CONCRETE
highly strength and pressure resistant
- ★ MARINE-GRADE STEEL
corrosion resistant and durable
- ★ ACRYLIC GLASS
high clarity, impact resistant
great for underwater views
- ★ TITANIUM
lightweight
- ★ EPOXY COATING
for waterproofing

NOTE:

- MINIMAL IMPACT ON MARINE ECOSYSTEM
- SUSTAINABLE DESIGN
- RESPECTING THE NATURAL FLOW OF WATER

CONCEPT SHEET

CONCEPT IDEA

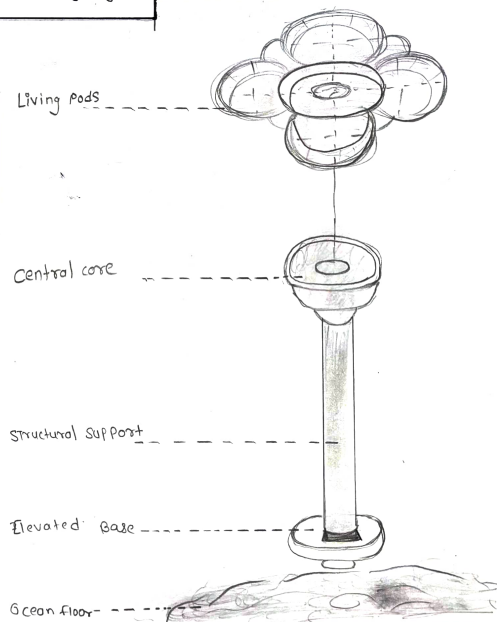

The concept of the underwater home is to create a harmonious relationship between human and marine life. Inspired by the organic forms of corals and the fluidity of water, the design seeks to blur the boundaries between inside and outside, offering a tranquil, immersive living experience where nature becomes a part of a everyday life.

DESIGN PHILOSOPHY

- **CO-EXISTENCE**
Design that respects and enhances the marine ecosystem.
- **TRANSPARENCY**
Panoramic views that create a seamless connection with the ocean.
- **SUSTAINABILITY**
Using sustainable materials and renewable energy for minimal impact.
- **WELL-BEING**
Natural light, calm environment and biophilic design for mental wellness.

DESIGN NARRATIVE

The underwater home is envisioned as a sanctuary of peace and connection. The form is inspired by natural elements found in the ocean. The design radiates from a central gathering space, the heart of the home, where family comes together and life flows outward into private and semi-private space. Panoramic curved glass wall dissolve the barrier between indoors and the ocean, allowing natural light to dance through the water and creating a constantly changing ambiance.
